Natura World Referral Program

Synergy Health is offering a \$50.00 in store Gift Certificate to anyone who refers a Natura World mattress sale!

Does lotion leave you dry?

Motion lotions fall short as the dry winter months approach. Dermal Therapy offers truly effective lotions that use high levels of silk amino acids and alpha-hydroxy acid. These products are not available in the U.S. and must be ordered from Canada. Anyone who has tried vegetable oil based lotions and not been satisfied, this product works! Also available in extra strength for dry, cracked heels.

Aniracetam

As importing effective raw materials becomes increasingly difficult, Unique Nutrition offers a great replacement for Piracetam, the advanced cognitive nutrient. A fat soluble form (Aniracetam) stays in the system longer and requires less pills to achieve a similar effect. The reduction in acetyl choline as we age greatly contributes to Alzheimers, Dementia, and age related cognitive decline. Aniracetam easily elevated these levels for quick results and promotes overall brain function and health. This is a supplement that children, adults, and the elderly can all benefit from.

Sickness Prevention

As people scramble around for flu shots and antibiotics, how can you prevent sickness from knocking at your door? I use a variety of immune supplements in a random format throughout the winter months.

The choice of two different approaches to immune enhancements is a great way to stay healthy.

Some supplements that I choose from are Esberitox (Echinacea), elderberry, colostrum, colloidal silver, Herbal aloe, reishi mushroom, vitamin c, wellness formula, propolis, probiotics, and many more. By using antibacterials, and anti-virals simultaneously, you can go far in preventing sickness!

Fresh Traditional vegetarian Hummus, Falafel, and soups made to order by Ganesh.

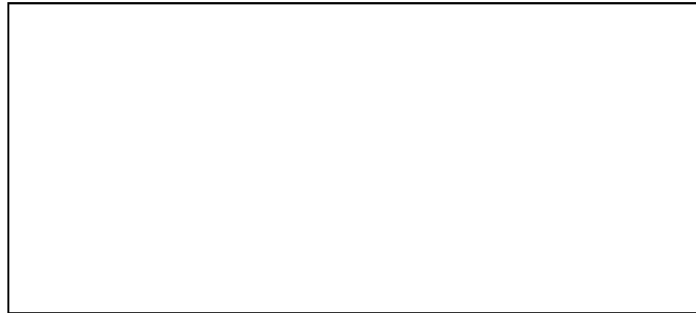

Call Synergy Health for ordering information.

Contact Suzy at (336)-501-2122 or e-mail thebodyoasis@yahoo.com.

Ideal Protein All-stars

Our latest success is Joey. He's lost over 35 lbs. He's gained a lot of confidence, started going to the gym, and looks like a totally different man. It's not hard to see how he did it with such a phenomenal diet program. I really enjoy seeing the great results from everyone doing this. I hope to see everyone soon!
